Vision

To empower the next generation of investors by providing intuitive, personalized financial solutions that make wealth-building effortless and accessible for everyone.

Mission

In 2025, we aim to solidify our position as the most trusted, user-centric platform for automated financial growth by integrating smarter AI-driven insights, enhancing user engagement, and scaling features for diverse financial needs.

Strategic Goals for 2025

1. Expand into Holistic Financial Wellness

Objective: Broaden our product offering from investment management to a comprehensive financial wellness platform.

Initiatives:

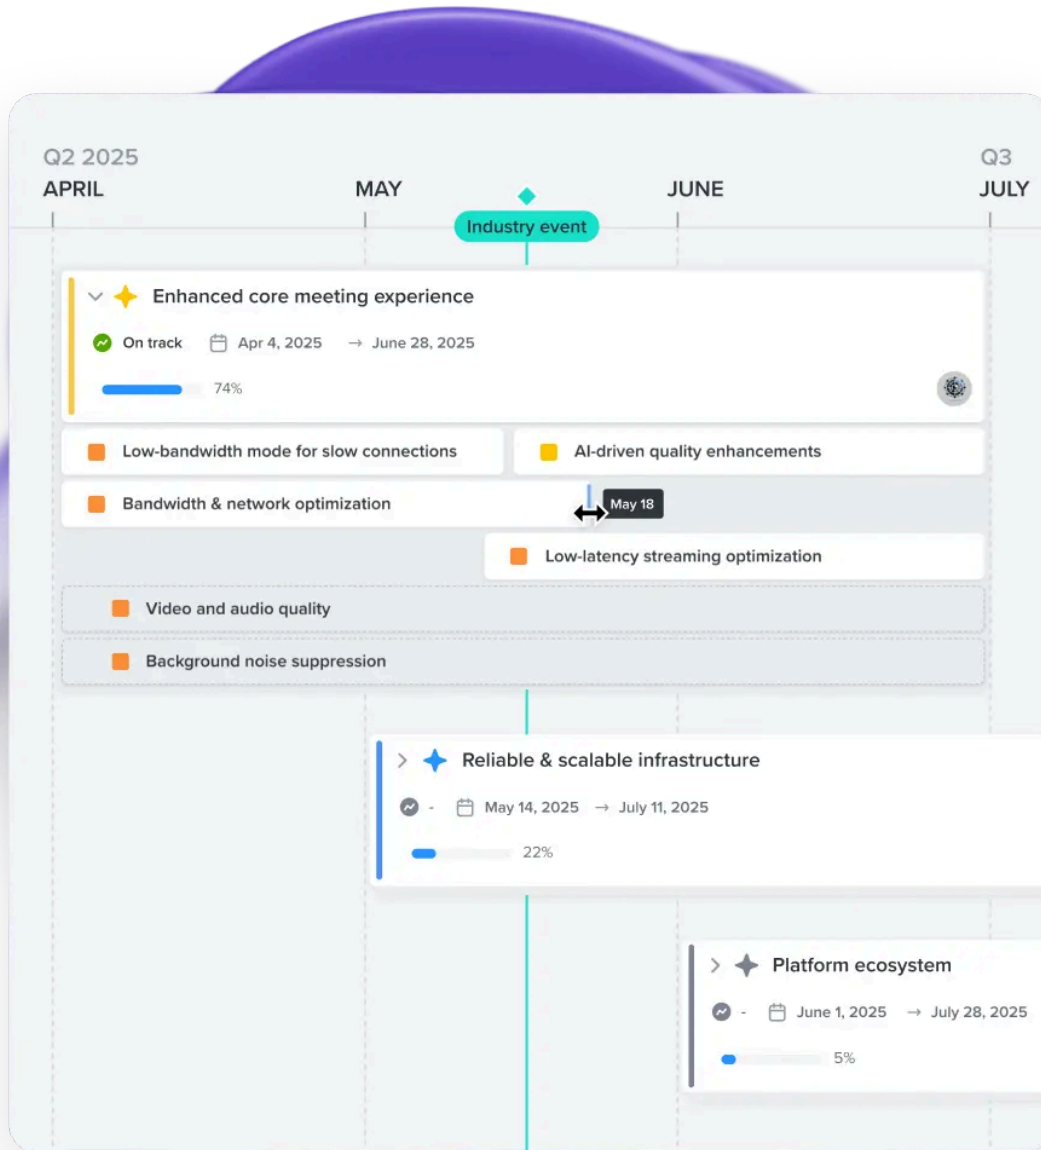

- ◆ **AI financial coaching** : Launch AI-powered financial coaching, offering tailored guidance on budgeting, debt management, and retirement planning.
- ◆ **Integrated services** : Integrate banking services, including high-yield savings and cash management tools, directly within the app.
- ◆ **Savings pods** : Introduce goal-oriented savings pods that dynamically adjust based on user-defined priorities.

PRODUCT STRATEGY DOCUMENTS

Formulate your product strategy

Draft your product strategy using Productboard's collaborative docs, a rich authoring environment that supports inline @referencing for product data entities like objectives, initiatives, and feature ideas — plus embedding of customer insights, designs and prototypes, brainstormers, and videos.

Dependency tracking

"Before when using various spreadsheets, product planning data would get old really fast. With Productboard, we were able to make continuous changes in one single source of truth. The entire release planning process was cut from 2–3 weeks to just a couple days because we are able to plan as we go."
